## PROFESSIONAL SUMMARY

Results-driven AWS Solutions Architect and DevOps Engineer with **6+ years** of experience designing and delivering enterprise-grade cloud infrastructure. Holds **8 industry certifications** — including **AWS Certified Solutions Architect (Associate)** and **6 Anthropic AI certifications**. As an **AWS Academy Educator**, has successfully designed and delivered **60+ training programs** across engineering colleges and universities pan-India, each receiving outstanding positive feedback. Bridges deep technical expertise with high-impact education and the ability to communicate complex cloud concepts to any audience.

## KEY ACHIEVEMENTS & IMPACT

- **60+ Training Programs** delivered pan-India — 100% positive feedback every time
- **AWS Certified Solutions Architect** (Associate) — Jan 2026 – Jan 2029
- **6 Anthropic AI Certifications** — Claude API, MCP, Claude Code, AI Fluency & more (Feb 2026)
- **AWS Academy Educator** — authorized to deliver official AWS Academy curriculum
- **6+ Years** freelance cloud consulting — end-to-end architecture, migration & DevOps
- **Chitkara University** — full 5-month semester program (Jan–May 2026)
- Curricula aligned to **AWS SAA** and **Azure AI-900** certification tracks

## TECHNICAL SKILLS

**Certifications:** AWS Certified Solutions Architect (Associate) | AWS Academy Educator | 6× Anthropic AI

**Cloud Platforms:** AWS (Primary), Microsoft Azure AI, IBM Cloud

**AWS Services:** IAM, EC2, S3, VPC, RDS, Route 53, CloudFront, Lambda, EBS, EFS, Glacier, CloudWatch, CloudTrail, SNS, SQS, DynamoDB, Redshift, Auto Scaling, ELB, Storage Gateway

**DevOps & CI/CD:** Jenkins, Git, GitHub, Docker, Ansible, Terraform, Kubernetes (kubect!)

**IaC:** Terraform, Ansible Playbooks & Inventory Files

**Containers:** Docker, Kubernetes on AWS (EKS)

**Monitoring:** CloudWatch, Prometheus, Grafana, Splunk

**Databases:** Amazon RDS, DynamoDB, MySQL

**Networking/Security:** VPC, Subnets, CIDR, Security Groups, IAM, MFA, Route Tables, Internet Gateways

**Scripting:** Python (Lambda, Automation), Shell Scripting

**Operating Systems:** Linux (RHEL, Ubuntu), Windows Server

## PROFESSIONAL EXPERIENCE

### Freelance AWS & DevOps Consultant / Cloud Educator

*Self-Employed | 6+ Years*

- Architected and implemented highly available, fault-tolerant AWS infrastructure for enterprise clients across multiple industries
- Led cloud migration (lift-and-shift) from on-premises to AWS — Dev, QA, Prod, and DR environments configured end-to-end
- Implemented multi-AZ High Availability with Auto Scaling groups and Elastic Load Balancers for production workloads
- Designed secure multi-tier VPCs with public/private subnets, route tables, NACLs, and security group policies
- Authored Python Lambda functions for serverless automation, significantly reducing manual operations overhead
- Built and maintained CI/CD pipelines enabling continuous integration and delivery across client projects

- Deployed containerized applications via Docker and Kubernetes (EKS) — improving release speed and consistency
- Provisioned infrastructure using Terraform and Ansible for repeatable, version-controlled environments (IaC)
- Implemented comprehensive monitoring with CloudWatch, Prometheus, Grafana, and Splunk
- Managed S3 lifecycle policies, versioning, cross-region replication, and static hosting configurations
- Administered IAM: roles, users, groups, permission boundaries, and MFA enforcement for account security
- Managed RDS and DynamoDB instances for relational and NoSQL production workloads

## TRAINING & EDUCATION DELIVERY

60+ Programs • 100% Positive Feedback • Pan-India • AWS • DevOps • Azure AI • Linux

Designed and facilitated **60+ structured training programs** at engineering colleges and universities across India. Every session received **outstanding participant feedback**. Programs blend certification-aligned theory with hands-on cloud labs.

### Select Institutional Engagements:

| Institution                                           | Program                            | Duration |
|-------------------------------------------------------|------------------------------------|----------|
| Chitkara University, Punjab                           | AWS Cloud & DevOps (Full Semester) | 5 Months |
| GITA College, Odisha                                  | Azure AI Certification             | 15 Days  |
| KLE JT BCA, Karnataka                                 | AWS Cloud Foundations              | 27 Days  |
| MIT College, Mumbai                                   | Azure AI Certification             | 25 Days  |
| S.A. Engineering College, Chennai                     | AWS Cloud & Architecture           | 28 Days  |
| Vel's University, Chennai                             | AWS & Cloud Computing              | 18 Days  |
| MITM, Odisha                                          | DevOps & Cloud Essentials          | 22 Days  |
| Vikas College, Nunna, Vijayawada                      | AWS Cloud Training                 | 14 Days  |
| Govt. College of Engineering, Thanjavur               | AWS & DevOps                       | 20 Days  |
| MIT, Mysore                                           | Cloud Architecture                 | 17 Days  |
| DMI College of Engineering, Chennai                   | AWS & DevOps                       | 24 Days  |
| Sri Vasavi Engineering College (SVEC), Andhra Pradesh | AWS Cloud Training                 | 19 Days  |
| AIMIT, Mangalore                                      | Cloud & DevOps                     | 13 Days  |
| BIT (Bannari Amman Institute), Coimbatore             | AWS Foundations                    | 21 Days  |
| Nehru Arts & Science College, Coimbatore              | Azure AI & Cloud                   | 16 Days  |
| Jeppiaar University, Chennai                          | AWS & DevOps                       | 23 Days  |
| Dhanalakshmi College of Engineering, Perambalur       | AWS Cloud & Architecture           | 11 Days  |

+ Many more institutions across India...

- **60+** programs — AWS, DevOps, Azure AI, Linux, Cloud Architecture
- All programs received **outstanding feedback** with high participant satisfaction
- Curricula aligned to **AWS SAA**, **Azure AI-900**, and DevOps industry standards
- Delivered workshops from **11 days** to full **5-month semester** programs
- Audiences: engineering undergraduates, postgraduate students, and working professionals
